

Culligan Water®

The Smartest Way To Fix Hard Water Problems.

Introducing the Aquasential™ Smart High Efficiency Twin Water Softener.

For high-efficiency water softening, nothing can match the intelligent design of the Aquasential™ Smart High Efficiency (HE) Twin Water Softener.

Just how smart is the Aquasential Smart HE? Smart enough to alert you to low salt levels and other issues. Sophisticated enough to be controlled remotely. And intelligent enough to let you customize your water's softness. With patented technologies to optimize salt, water and electricity consumption by up to 40%*, it can save you money. Even better, it can improve your daily life. Enjoy brighter wash and sparkling glasses. Do less cleaning and scrubbing. Increase water heater efficiency. And more.

With a new, modern color, improved app experience, plus always-on WiFi connectivity and remote monitoring, the Aquasential Smart HE Twin gives you cleaner, safer water and more peace of mind.

Get greater control over your water with our Culligan® Connect Consumer App.

Now, it's easy to connect and monitor all of your connected Culligan devices, right from your smartphone or tablet.

- See all your Culligan connected products on one screen
- Manage your water softener remotely
- Dive into greater detail about water usage and product performance

WIFI CONNECTED

MANAGED ON YOUR SMARTPHONE

OPTIONAL REMOTE MONITORING BY CULLIGAN

OPTIONAL LEAK-SENSING TECHNOLOGY

* 40% less versus a time clock regeneration softener. Progressive flow savings will be lower.

The Culligan® Aquasential™ Smart HE Series. The World's Most Efficient Water Softener*.

	Culligan® Aquasential™ Smart HE Twin	Competitors
Reduces operating costs up to 40%*	•	
Remote by-pass capability	•	
Real time status updates	•	
External Leak Sensor (optional)	•	
Controls the feel of your water	•	
Automatic adjustments to water conditions	•	

Softener Salt Management

Always know how long your salt will last. Culligan Aquasential Smart HE Series will inform you exactly how many days remain until you run out of salt, and when you need to refill.

Smart Technology

Smart technology means you get “set it and forget it” convenience. Culligan’s suite of smart features, including the Salt Level Monitor, Leak Sensor, Aqua-Sensor® and Culligan Connect App, provide enhanced water insight.

Hey Culligan!

At Culligan, we’ve been committed to providing superior water treatment products for over 85 years. Our units offer state-of-the-art electronic controls, innovative valve design, and are tested to the highest standard. And they’re supported by your local Culligan Water® dealer, a water expert that can also provide salt delivery, filter and media changes, rentals and financing options.

A Culligan® Aquasential™ Smart HE Twin Softener gives you:

BRIGHTER LAUNDRY

SPARKLING,
SPOT-FREE DISHES

SOFTER HAIR & SKIN
AND EASIER CLEANING

LONGER LASTING
WATER-USING
APPLIANCES

* HE Softener when configured with proportional up flow brining with Aqua-Sensor®.

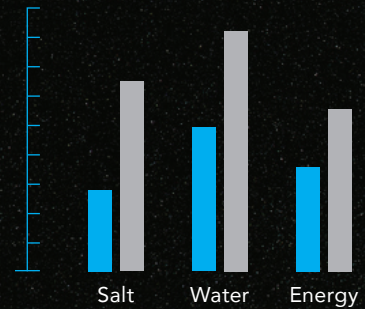

** 40% less verses a time clock regeneration softener. Progressive flow savings will be lower.

Cost Savings

Reduces operating costs up to 40%** with patented technologies to optimize salt, water and electricity consumption.

Product Specifications

Patented Smart Technology

- Automatic bypass valve provides the convenience of bypassing the water softener from the softener itself or by using the Culligan® Connect App.
- Exclusive Culligan Soft-Minder® meter monitors daily water use and provides advanced system diagnostics.
- The easy-to-read back-lit display lets you know your softener is working and warns of system malfunctions.
- Culligan's Dial-a-Softness® control lets you choose the way you want your water to feel.
- Culligan's Connect App provides peace of mind with 24/7 monitoring and control of your Culligan equipment.

Twin Configurations Available

- Duplex Alternating System

The Culligan HE Duplex Alternating Twin provides uninterrupted conditioned water 24 hours a day. Two independent mineral tanks provide a continuous supply of soft water; when one tank is exhausted, the second tank takes over while the first regenerates.

- Progressive Flow

With Culligan's patented Progressive Flow feature, you can size softeners based on average water usage, which helps reduce costs. The feature is best suited for applications requiring intermittent/periodic high flow rates. The Culligan Smart Controller monitors water demand and brings the additional tank online or offline as the flow demand changes.

Exclusive Reliable Design

- Mechanical improvements including design updates and indicator lights to make sure it's always in peak condition.
- Exclusive, non-corrosive valve using motorized pistons that provide more reliability than rotary valve systems.
- High-impact Quadra-Hull® Tank use a four-layer design that resists UV rays, rust and corrosion. Limited lifetime warranty.
- Cullex resin media assures stability and long life. High-grade quartz underbedding evenly distributes water to maximize flow rates.
- Long-lasting brine tank with corrosion-proof components and Dubl-Safe brine refill control assure proper operation.
- Culligan Aquasential Smart HE Twin also available as an outdoor model.

Product Dimensions

Size	A	B	C	D	E	F
9"	56"	48"	9"	18" 375 LB Brine Tank	43"	35"
10"	62"	54"	10"	18" with 375 LB Brine Tank	43"	35"
12"	60"	52"	12"	18" with 375 LB Brine Tank	43"	35"
