

Culligan Water®

Soft water starts here.

Introducing the Aquasential™ Select Plus Series™
and Select Series™ Water Softeners.

Soft water should be simple.

Having hard water makes life, well, harder. It means that dissolved minerals enter your home through your water, forming unwanted scale anywhere that it goes.

And scale means costly wear and tear to water heaters and other water-using appliances, extra money spent on soap and laundry detergent, and the time and hassle that comes with battling dry skin and dull hair.

But an Aquasential™ Select Plus or Select Water Softener is the easy and affordable way to treat hard water in your home.

With the Aquasential™ Select Plus and Select Water Softener, you'll get...

BETTER LAUNDRY

Vibrant colors, cleaner whites, and fluffier, more absorbent towels.

EASIER CLEANING

Enjoy softer hair and skin, use less soap and shampoo, and spend less time scrubbing bathtubs, fixtures, shower stalls and glass.

SPARKLING DISHES

Washed by hand or in the dishwasher, your glassware comes out spot-free, and your dishes, flatware, pots and pans come out clean and shiny.

FEWER COSTS

Spend less on soaps, detergents, lotions, electricity and gas for your water heater and dramatically extend the life of your water-using appliances.

Select Features

LOW VOLTAGE OPERATION
(24-volt)

DEMAND REGENERATION
Saves water, salt and electricity

FINGERTIP OPERATION

CUL-FLO-VALV® BYPASS TO CONSERVE SOFT WATER

PROVEN PISTON OPERATION FOR YEARS OF RELIABLE SERVICE

Hey Culligan!

At Culligan, we've been committed to providing great water for over 85 years. Our units offer state-of-the-art electronic controls, innovative valve design, and are tested to the highest standard. And they're supported by your local Culligan Water expert, who also provides salt delivery, filter and media changes, rentals and financing options.

Superior service

- More than 10,000,000 homes and businesses around the world have chosen Culligan Water®
- Culligan Water has been serving homes for over 85 years
- Local, professional application and service
- Totally focused on water
- Convenient salt delivery service available

Product Specifications

- Cul-Flo-Valv® allows you to bypass the system when you don't want soft water, like watering your lawn.
- Culligan meter option monitors daily water use and activates regeneration only when needed to salt and water.
- Exclusive, non-corrosive 5-cycle motorized control valve directs water flow during service and regeneration cycles.
- Cullex resin is backed by a limited lifetime warranty and offers maximum water softening capacity, stability, and lifespan.
- High-grade quartz underbedding evenly distributes water to maximize flow rates.
- Low-voltage, fully-programmable Accusoft® Microprocessor offers easy data entry, and is safe from most power interruptions and surges.
- Guest-Cycle recharge feature provides an extra supply of conditioned water when needed
- Sturdy, filament-wound exterior and smooth, non-permeable inner tank and shell is listed with the National Sanitation Foundation.
- Extended life thanks to Dubl-Safe brine refill control with assured shut-off and corrosion-proof components.
- System protection from a non-corrosive brine plate that assists in dissolving salt and protects the system from salt impurities.
- Ready to fit your home with Select Plus for 1" plumbing and Select for ¾" plumbing.
